VODKA SIDERIT LACTEE

Siderit Vodka Lactée is an ultra-premium vodka, delicately produced, out of the alcohol obtained from the fermentation of the milk sugars. After several distillations through a fractioning column, a very pure alcohol with different taste notes is obtained.

To close the process, the distillate is diluted with spring water with the lowest mineral content in the Iberian Peninsula, from Ortigosa del Monte at the Northern slope of the mountains of Guadarrama. Quadruple filtration on a equipment worthy of the best laboratories, with natural filtering materials, that remove any impurity in its itinerary for more than 24 hours. Finally, the vodka is equilibrated in a tank for a minimum of two months to reach its maximum splendor. From the care and dedication of its creators, Leivas & Prieto, an ultra-premium vodka is born, not able to leave indifferent any of the most experienced taster.

POINT ONE VODKA

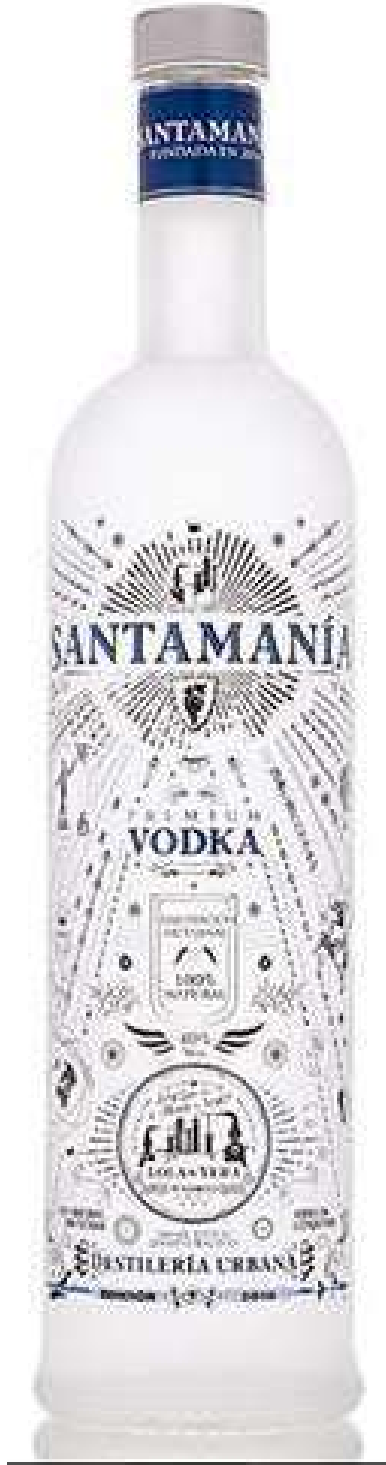

Vodka of triple distillation, maximum neutrality and elegance. Selection of the best Andalusian cereals and water of Sierra Nevada. Exceptional purity

GIN SIDERIT CLASSIC

Among its botanicals stands the Syderitis Hissopifolia or rock tea, an endemic to Picos de Europa Mountain's plant, which gives the Gin its name and makes a unique and unequalled product.

Gin Siderit is a Dry Gin handcrafted in Cantabria, distilled from rye alcohol. The distillation is made from the maceration of its twelve botanicals and is double distilled in batches in a reflux fractional column. The entire equipment is made of glass to prevent foreign smells or tastes. Every distillation in these equipment's of own design is equivalent to five distillations of a traditional alembic.

Another of the botanicals is the flower of Jamaica that gives the Gin a floral aroma and a fresh aftertaste. Mandarin and pink pepper envelop the palate with a hint of pleasant sweetness. Angelica root, coriander and cinnamon provide a set of rich sensations in the mouth. Lily root, also known as German orris, joints and enhances all scents and flavors. Bitter orange peel is added to counterbalance the mandarin and pink pepper sweetness. Finally, almonds provide unctuous smoothness to the distillate.

An Ultra-Premium Gin made with the affection of its master distillers. A combination of 12 botanicals rooted in the mountains of northern Spain. Produced in small batches and tasted by the most demanding customers worldwide.

BRUNI COLLINS GIN

Bruni Collin's Gin is a gin that stands on three piles: complexity, citrus and sweetness. Complexity in the secluded botanicals is alluring when they unfold in the palate. Significant citrus notes that give pale freshness also contribute with backbone and structure. The sweetness is beautifully wrapped in a viscous and creamy texture, which step by step shows the strength of the
